

# Critical Information Summary

## Hubify TC2 NBN™

### Service Description

Hubify TC2 NBN™ is a business grade, symmetrical internet service that uses fibre optics or a combination of fibre optics and copper to deliver speeds of 5Mbps up to 100Mbps.

This is an unlimited internet service (i.e. there is no restriction on the amount of data you upload/download). Acceptable Use Policy applies to data usage.

### Requirements & Availability

Hubify TC2 NBN™ is available and limited to certain buildings throughout Australia. Your correct address must be pre-qualified before a formal quotation and/or delivery of service can be provided.

Hubify TC2 NBN™ requires a compatible router or firewall at your premise. This router can be sourced externally or (subject to compatibility and availability) purchased outright from Hubify. You can choose our managed router option in which case we will supply and manage the router for you.

A technician will need to attend your premise to install this service and may require access inside the property or areas associated with the property. More than one visit may be required. You will not be charged for these site visits. Additional charges may apply should you change the scheduled appointment. Where applicable and subject to your approval, additional charges imposed by a third-party contractor or provider may apply.

### Inclusions

Hubify TC2 NBN™ plans include one static public IP address™ and the installation of one Network Termination Unit (NTU).

### Minimum Service Term

Unless otherwise specified, Hubify TC2 NBN™ is available on 24 and 36 month contract terms.

### Exclusions

Any cabling, switching or additional hardware relating to your use of the service is not included. The technician will not install any cabling between the Main Distribution Frame (MDF) and Internal Distribution Frame (IDF) and will not supply/install any router, firewall, network cabling or other equipment. Supply of power for the NTU is not included.

Relocation of the service and additional setup fees are not included. We cannot guarantee that we will be able to provide this service (or a similar service) at your new location. Early termination charges may apply.

## Monthly and Once-Off Charges

Plan Name	Setup Charge (Inc GST)		Monthly Charge (Inc GST)		Total Minimum Cost (Inc GST)

### Speed

Actual speeds may vary depending on source/type of content downloaded and plan selected.

### Pricing

Pricing for Hubify TC2 NBN™ may vary depending on the region your address is located in (e.g. Metro or Regional) and whether existing infrastructure is in place. In the event of additional commercial works or build costs required for the delivery of Service, Hubify may present an increased Monthly and/or Setup Charge which will require your acceptance.

### Optional Equipment and Services

A selection of optional equipment and professional services are available, such as routers, switches, Failover Configuration and Router Management. Prices will depend on the options you select.

### Early Termination Charges

If you cancel the service before the end of your contract term, Early Termination Fees (ETF) will apply. ETF is calculated as the monthly charges multiplied by the balance of the contract period.

### Customer Service

If you have questions regarding a new installation, existing service or your bill please call us on **1300 482 439**.

### Complaints Handling

If you wish to make a complaint, please contact our support team by email at: [support@Hubify.com.au](mailto:support@Hubify.com.au)

### Further Options

If you are not satisfied with our handling of your complaint and you have escalated this within Hubify, you may seek complaint mediation or further assistance from the Telecommunications Industry Ombudsman either online at [www.tio.com.au/](http://www.tio.com.au/) or by phone on **1800 062 058**.
