

Critical Information Summary

Hubify Business Ethernet over Copper

Service Description

Hubify Business Ethernet over Copper (EoC) is a symmetrical internet service that uses copper pairs to deliver speeds of 5Mbps up to 80Mbps.

This is an unlimited internet service (i.e. there is no restriction on the amount of data you upload/download). Acceptable Use Policy applies to data usage.

Requirements & Availability

Hubify EoC is available and limited to certain buildings throughout Australia. Your correct address must be pre-qualified before a formal quotation and/or delivery of service can be provided.

Hubify EoC requires a compatible router or firewall at your premise. This router can be sourced externally or (subject to compatibility and availability) purchased outright from Hubify. You can choose our managed router option in which case we will supply and manage the router for you.

A technician will need to attend your premise to install this service and may require access inside the property or areas associated with the property. More than one visit may be required. You will not be charged for these site visits. Additional charges may apply should you change the scheduled appointment. Where applicable and subject to your approval, additional charges imposed by a third-party contractor or provider may apply.

Inclusions

Hubify Business Ethernet plans include one static public IP address and the installation of one Network Termination Unit (NTU).

Minimum Service Term

Unless otherwise specified, Hubify Business Ethernet over Copper is available on 24, 36 and 48 month contract terms.

Exclusions

Any cabling, switching or additional hardware relating to your use of the service is not included. The technician will not install any cabling between the Main Distribution Frame (MDF) and Internal Distribution Frame (IDF) and will not supply/install any router, firewall, network cabling, additional copper pairs or other equipment. Supply of power for the NTU is not included.

Relocation of the service and additional setup fees are not included. We cannot guarantee that we will be able to provide this service (or a similar service) at your new location. Early termination charges may apply.

Speed

Actual speeds may vary depending on distance from the exchange, copper quality, source/type of content downloaded, and number of copper pairs used to deliver the service. These factors may result in EoC speeds ranging up to 6Mbps from the prescribed plan speeds; for example, the minimum and up-to speed of a 10Mbps EoC connection is 4-10Mbps.

Optional Equipment and Services

A selection of optional equipment and professional services are available, such as routers, switches, Failover Configuration and Router Management. Prices will depend on the options you select.

Early Termination Charges

If you cancel the service before the end of your contract term, Early Termination Fees (ETF) will apply.

Date of termination or cancellation	Local
0 – 12 months after the Service Start Date	75% of Remaining Charges
12+ months after the Service Start Date	85% of Remaining Charges

“Remaining Charges” means the total charges that would have been payable after the effective date of termination or cancellation and for the remainder of the current Minimum Service Period (if the termination or cancellation had not occurred).

Cancellations can be submitted by going to <https://www.hubify.com.au/cancellations/> or sending an email to cancellations@hubify.com.au with the subject line ‘Cancellation Request.’ In the email, please provide your account details, the service you wish to cancel, and the reason for cancellation.

Once we receive your email, a Hubify representative will promptly assist you with the cancellation process.
